## Which Shall it Be

Two suggestions were made at the Council meeting on Monday night in regard to the position of constable for the town for the balance of the year. One applicant stated thas he would repair sidewalks and crossings, keep crossings clean, see after fire in fire hall, and do the gen-eral duties of constable for 825 a month or a fraction less than 84c, a day; another was that a man could be secured for 50c. a day and \$2.50 for every arrest made but he would attend to his own work throuh the day except when called upon to perform the duties of constable

There seems to be some diver

vor of just paying a man to act as constable and employing outside labor to do the repair work etc. While others feel that all the work should be included in the constable's luties and the council should have more con-

a saving standpoint, it would be better to take up the first proposition than the latter, as by the time labor in repairing sidewalks alone at from \$1.50 to \$2.00 per day is paid for and the 50c day is paid for and the 50c a day for just the constable's salary alone will amount to a good deal more that \$25 per

#### Public Ownership of Terminal Elevators

Since Alberta Farmers Association and Canadian Society of Equity joined hands the U. F. A. has been very successful and is doing good work all along the line. The north country is well organized and next vear special efforts will be made in the south part of the province. The annual convenion has just been decided upon and will take place in Edmonton on January 19, 20, and 21. The membership this year has rapidly increased and the U. F. A, is now the largest farmers organization in the west.

He con tracted it on his ranch at High River only a few days before he intended t start for France to marry the sweet heart he had left there a number of years before. His intention was to go to France, marry the girl he loved and return with her to spend the rest of his days on the ranch

## The Police Force is Here to Stay

Regina, Sask., Oct. 29th. — That there is no talk of doing away with the Royal Northwest Mounted Police Force is greater to-day than ever before, was the view expressed by comp-troller Whyte of Ottawa. The force now measures 680 men, which is 20 short of the limit allowed by the government grant, although the enlistment quite often fluctuates above and be-low the limits. With such masses of cosmopolitan

population drifting into the country, there are more disputes and crimes to settle than ever before, and it is only by means of such a force as this one that petty controversies can be settled.

### Obituary

It is with deep regret we have to re-ceache the death of Mrs. Gardener the wife of Win. Gardener of Elkton, which took place on Tuesday morning. Mrs. Gardener came to this country from Alterdeenshre about five years ago and was held in high regrad by all who knew her. She will be buried in the Big Prairie Ceipstery on Saturday. Deep symonthy is felt by all the neigh borhood towards the bereaved family. The deceased was, 66 years old, and though she has been ailing for some months, it was only during the last two months, it was only during the last two weeks that she had to take to her bed.
